

# Green, Greener, Green Bay

## Power

- Adjacent to 150/380kV power station,
- Dual 60MW connection to grid
- Uptime > 99.999%
- Renewable power sources
- NLG generators for emergency power (low emission)
- Optional Battery back-up for emergency power (zero emission)

## Cooling

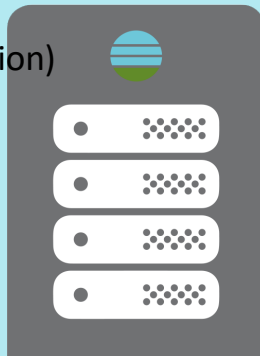

- Mixed of free-air and adiabatically cooling
- Chillers for peak shaving
- Ashrae recommended and 200 hour Allowable
- PUE < 1.1

## Connectivity

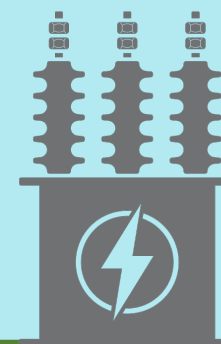

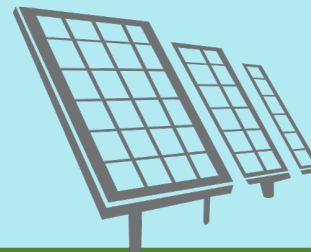

- DWDM network to Amsterdam
- 2x 100G per 1MW Data Center (suite)
- 5x internet exchange
- 200x telecom carriers
- Roundtrip latency < 2.5ms
- Advantages Cross-Connect

## Services

- Extreme high security level
- DCIM
- Fire safety compartments
- Fire Extinguish installation
- Advantage access to suites
- Advantage CCTV
- Floor Management
- Smart hands
- Customer offices
- Customer staging rooms
- Customer storage
